Comedy Hours

User guide

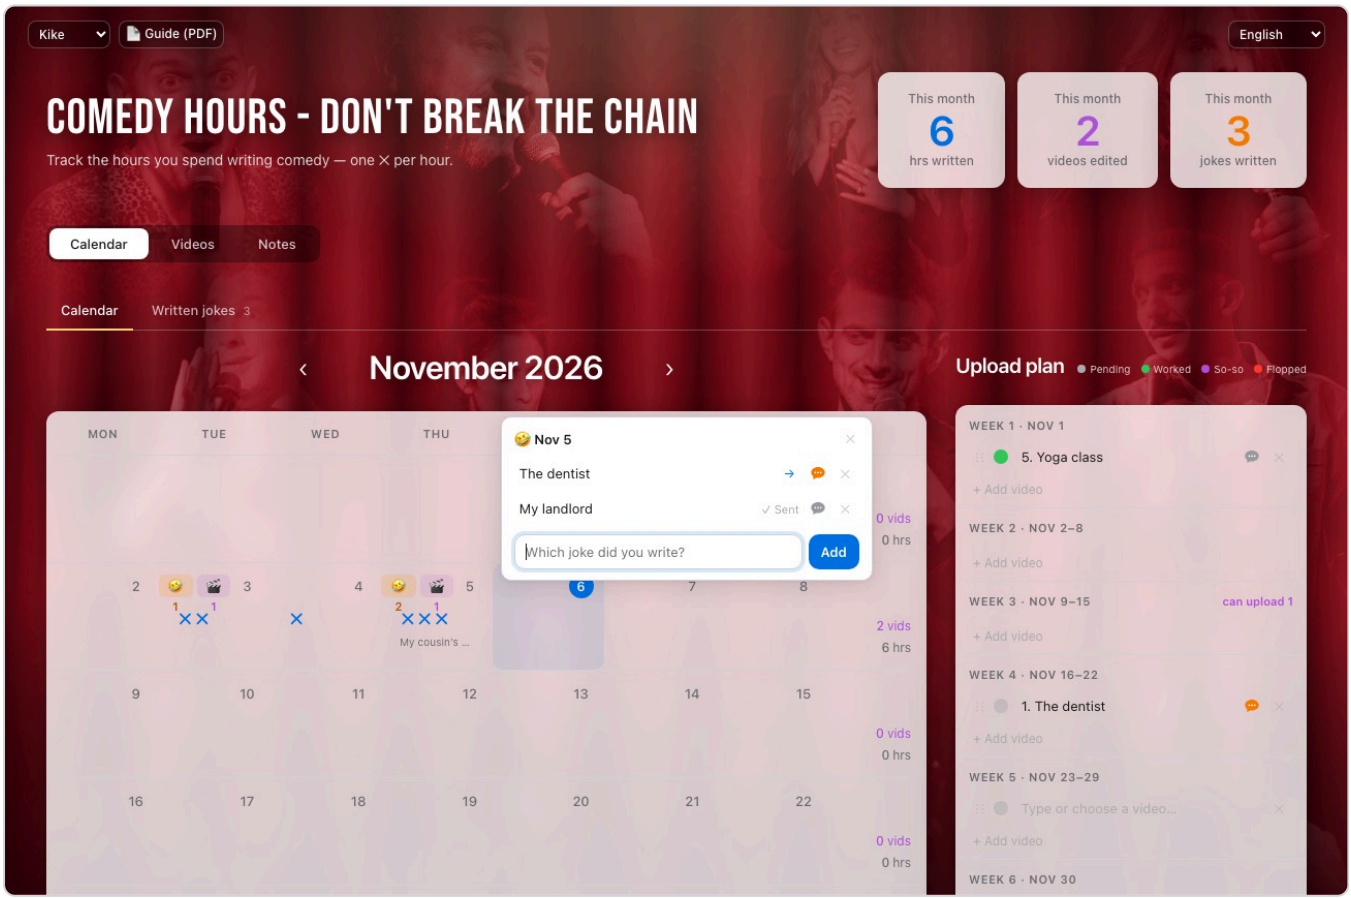

Comedy Hours lets you log what you write and plan your videos. Everything saves on its own, and you see the same data on any device.

Before you start

- **Choose your profile** and enter its password, which the person running the app will give you. Each profile has its own data.
- **Your browser remembers your profile,** so you won't type it every time. It only asks on a new browser or if you change profile, at the top left.
- **Change the language** at the top right.
- **Download this guide** with the button next to the profile.

Calendar

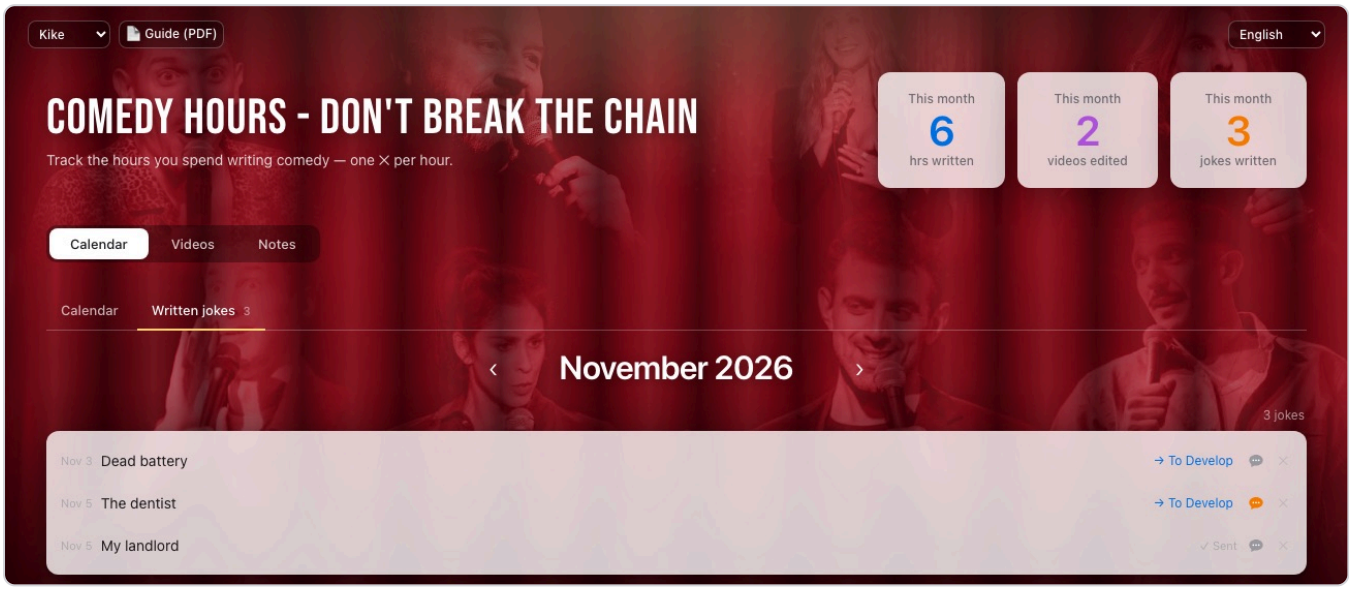

- **Hours:** click a day to add one ✕ per hour. To remove one, right-click or long-press.
- **Videos edited 🎬 :** click to add one; right-click or long-press to subtract.
- **Jokes 🤣 :** click to open that day's joke list.
- **Day note:** hover over the day and press "+ note" (✎ on a phone).
- The top shows the month's total hours, videos and jokes.

On each day: 🤣 jokes, 🎬 videos edited and one ✕ per hour.

Jokes

- Press 🤣 on a day, type the joke and press **Add**. If you leave it blank it still counts, and you can title it later.
- The → arrow sends it to **Videos to Develop**. The joke stays on your list, marked **✓ Sent**.
- **Calendar › Written jokes** lists the whole month. It opens on the calendar's month, and the arrows change month.

The month's written jokes.

Upload plan

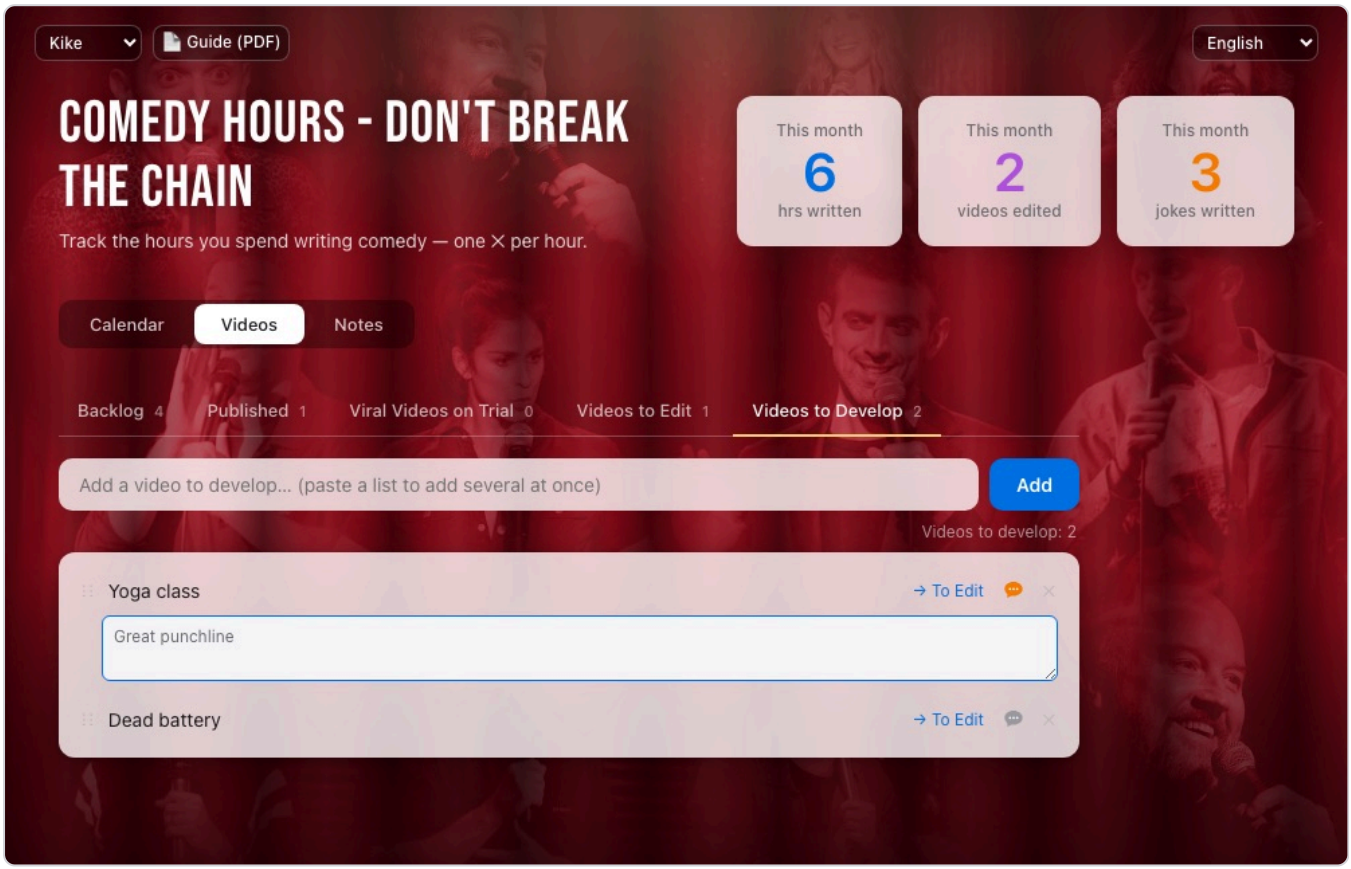

- Press **+ Add video** in a week and type to filter your backlog, or choose from the list.
- If you choose a video that's already in another week, **it moves** to this one. The list shows you where it is.
- If you type a new title, you can create it with **+ Create**.
- **The coloured dot** marks the result, one click per change: pending, worked, so-so or flopped.
- Drag ⋮⋮ to move a video. The "can upload N" hint comes from the videos you edited the week before.

Video picker with the whole backlog.

Videos

- **Backlog:** your pending videos. You can paste a list to add several at once.
- **Published:** a video moves here once its week has started and it has a coloured result.
- **Viral Videos on Trial:** a list with tick boxes.
- **Videos to Develop:** the → **To Edit** arrow moves it to the next list.
- **Videos to Edit:** the → **Backlog** arrow moves it to the backlog once edited.

Videos to Develop, with a comment open.

Comments

- The speech-bubble icon is on every row: **grey** means no comment and **orange** means there is one. Click to open or close it.

Notes

- **To-do:** your task list.
- **Notebook:** free space for ideas, premises or reminders.

Trainings Juanmo profile only

- Shows the documents in the trainings Google Drive folder. Press **Connect Google Drive** and pick a document to edit it here or in **Full screen**.
- **New** creates a document with the next number. If the Google session expires, connect again.

Saving

- Every change saves automatically, and **Saved ✓** appears at the top right.
- If you see **Offline**, changes stay on that device. At the bottom, **Sync now** reloads what's in the cloud and replaces what's on screen.
